

HDT HAND DISINFECTION STATION

Part #:

83201050 *Right side entrance*

83201060 *Left side entrance*

HDT Hand Disinfection Station

The HDT Hand Disinfection Station has an automatic dosing dispenser unit that reduces the risk of contamination before entering production areas. Place the unit on a flat surface and simply insert your hands into the openings. Sensors will automatically activate the disinfectant. When hands are disinfected, the turnstile is released.

HDT Hand Disinfection Station Features

- Ergonomic design
- 1.3 gallon capacity
- Adjustable two-sided dosing
- Chemical level indicator
- Reduces contamination risk

HDT Hand Disinfection Station Options
