83201010 Left side entrance

83201070 Floor mount frame

HDT-WM Hand Disinfection Station

The HDT-WM Hand Disinfection Station has an automatic dosing dispenser unit that helps reduce the risk of contamination before entering your production area. Mount the unit to a wall and simply insert your hands into the openings. Sensors automatically activate the disinfectant. Once hands are disinfected, the turnstile releases.

HDT-WM Hand Disinfection Station Features

- Reduces contamination risk
- Adjustable two-sided dosing
- Chemical level indicator
- Wall or floor mounting
- Fitted with a drain
- Available left and right entrances
