

SINGLE WASH BASINS

Part #:

83207015 *Sensor operated*

83207115 *Knee operated*

Single Wash Basin

This single-hand wash basin is ergonomically designed to help reduce the risk of contamination by using automatic sensors. Constructed from high-quality stainless steel, this wash basin has a siphon mounted in the drain to prevent odors from being released.

Our industrial hand wash basins are equipped with a legionella prevention system with automatic set flushing times. Flushing can be scheduled to start between 24 and 78 hours after the last use (this is adjustable).

Industrial Wash Basin Features

- Made from stainless steel
- Legionella-prevention
- Mixer tap
- Efficient drainage

Industrial Wash Basin Options

- Sensor operated
- Knee operated
