

SANICARE-DYSON HYGIENE STATION (SOLE DISINFECTION)

This hygienic station has sensors that ensure there is no unnecessary use of time or dosage use.

Hand washing and sole disinfecting happens simultaneously. The Dyson Airblade™ dries hands before they make it to the disinfection cylinders. The turnstile is released when hands are disinfected.

Machine Features

- Adjustable two-sided dosage
- Level indication
- Reduces contamination risk
- 4-year brush warranty
- No paper consumption
- Fitted with a drain

Machine Options

- Brush length: 59"
